Simplify Your Path To Financial Security With The American Freedom Classic 5

A fixed annuity that offers:

Predictable growth

To help build your retirement savings, your annuity's interest rate is guaranteed over a five-year period. No matter how the market performs, the value of your annuity will grow at a steady rate.

Safety of principal

Regardless of market conditions, you won't lose the money you contribute to your annuity unless you take a withdrawal or surrender your contract during its early withdrawal charge period.

Guaranteed retirement income

When you're ready to turn the money you've accumulated in your annuity into retirement income, you can select from a variety of payout options, including an income stream that will last for the rest of your life.

Annuity Basics

Simply put, an annuity is a contract between you and an insurance company. It is a long-term financial vehicle that's designed to protect and grow your money, and then provide a stream of income during your retirement. In fact, other than pensions, **annuities are the only products that provide guaranteed lifetime income.**

Great American Life® is committed to offering annuities that are simpler and easier to understand – helping to achieve your goals with no surprises.

How Your Money Grows

To help build your retirement savings, the American Freedom Classic® 5 offers an interest rate that is guaranteed for the initial five-year term.

How it works

With the American Freedom Classic 5, your money grows at a locked-in rate for five years, regardless of market conditions, making this annuity beneficial if you're seeking predictable, guaranteed growth with complete protection from loss.

Let's see how it works. In this hypothetical example, we will assume a purchase payment of \$100,000 and a 2.50% interest rate that is guaranteed for the five-year term.

Hypothetical example

Example assumes a \$100,000 purchase payment and no withdrawals.

What Is The Benefit Of Tax-Deferred Growth?

One of the benefits of an annuity is the opportunity for your money to grow tax deferred. This means no taxes are paid until you take a withdrawal, so your money can grow at a faster rate than it would in a taxable product.

The following chart shows how a purchase payment of \$100,000 grows in a tax-deferred annuity compared to a taxable product over the course of 20 years.

After paying a 25% tax on its earnings, the tax-deferred annuity outgrew the taxable product by more than \$8,000.

This graph assumes the taxable product and the tax-deferred annuity grow at an annual rate of 4%. This is a hypothetical scenario for illustration purposes only, and does not reflect interest rates of any specific fixed annuity offered by Great American Life.

For the taxable product, the graph also assumes the amount needed to pay taxes is deducted annually and no other withdrawals are taken during the 20-year period. For the tax-deferred annuity, it assumes no withdrawals are taken during the 20-year period.

Lower capital gains and dividend tax rates would make the taxable investment more favorable than the rate illustrated and reduce the difference in performance between these accounts. Consider your current and anticipated tax brackets in making your decision, as they may also impact comparison results.

This information is not intended or written to be used as legal or tax advice. It was written solely to provide general information and support the sale of annuity products. You should seek advice on legal or tax questions based on your particular circumstances from an attorney or tax advisor.

The graph compares a \$100,000 taxable investment to a \$100,000 tax-deferred investment, such as a non-qualified annuity. Certain qualified investments, such as a traditional IRA, offer an upfront tax deduction or exclusion for contributions. Other qualified investments, such as a Roth IRA, offer a tax exclusion for earnings. The value of these additional benefits is not illustrated.

For contracts that offer an upfront tax deduction or exclusion, the full amount withdrawn is generally subject to income tax. For a non-qualified annuity, only the gains are subject to income tax. If you are under age 59½, the taxable amount withdrawn from a qualified or non-qualified annuity is generally subject to a 10% federal penalty tax.

Additional Benefits

Guaranteed retirement income

With life expectancies on the rise, you may worry about outliving your savings. The American Freedom Classic® 5 provides the opportunity to turn the money you've accumulated in your annuity into a steady stream of retirement income. Depending on which payout option you choose, income benefit payments are made for a specific number of years or for life.

Protection for your loved ones

No one likes to think about it, but part of achieving peace of mind is knowing what would happen to your money if you pass away unexpectedly. With the American Freedom Classic 5, any death benefit is paid directly to your beneficiaries, which allows them to receive your financial legacy without the cost and delays of probate.

Consider Your Liquidity Needs

The American Freedom Classic[®] 5 is intended to be a long-term product. However, you will have access to a portion of your money each year with penalty-free withdrawals.

During the first contract year, you may withdraw up to 10% of your purchase payment. After the first contract year, 10% of the account value on the most recent contract anniversary may be withdrawn.

It's important to note withdrawals in excess of this amount may be subject to **early withdrawal charges** and a **market value adjustment**.

Great American Life. It Pays To Keep Things Simple.®

Why choose Great American Life?

As a leading provider of annuities, Great American Life Insurance Company is committed to helping people plan for a secure retirement. We offer a level of financial strength that our customers can count on. We are a wholly owned subsidiary of MassMutual, one of the largest life insurance companies in the U.S., founded in 1851.

When it comes to planning for your future, we believe it pays to keep things simple. From the products we offer to the service we provide, we make things as easy as possible. Whenever you have a question, we're only a phone call away. It's part of our simple promise to you: superior service and annuities that are easier to understand.

Our simple promise to you: superior service and annuities that are easier to understand.

American Freedom Classic 5 Features

Issue ages	<p>Qualified: 0–89 Non-qualified: 0–89 Inherited IRA: 0–75 Inherited non-qualified: 0–75</p>												
Purchase payment	<p>You can purchase this annuity with a single purchase payment of \$25,000 or more.</p>												
Fees	<p>There are no upfront charges. All your money goes to work for you.</p>												
Terms	<p>This product has an initial five-year term and may offer the option to renew for additional five-year terms.</p>												
Interest rates	<p>Interest rates are guaranteed during the annuity’s initial five-year term.</p>												
Penalty-free withdrawals	<p>During the first contract year, you may withdraw up to 10% of your purchase payment. After the first contract year, 10% of the account value on the most recent contract anniversary may be withdrawn. Amounts withdrawn in excess of the penalty-free withdrawal allowance may be subject to early withdrawal charges and a market value adjustment.</p>												
Early withdrawal charges	<p>During an initial term or a renewal term, an early withdrawal charge starting at 8% is applied to surrenders and withdrawals that exceed the 10% penalty-free amount.</p> <table border="1" data-bbox="472 1446 1195 1528"> <thead> <tr> <th data-bbox="472 1446 794 1486">Term year</th> <th data-bbox="794 1446 829 1486">1</th> <th data-bbox="829 1446 865 1486">2</th> <th data-bbox="865 1446 901 1486">3</th> <th data-bbox="901 1446 937 1486">4</th> <th data-bbox="937 1446 972 1486">5</th> </tr> </thead> <tbody> <tr> <td data-bbox="472 1486 794 1528">Early withdrawal charge</td> <td data-bbox="794 1486 829 1528">8%</td> <td data-bbox="829 1486 865 1528">8%</td> <td data-bbox="865 1486 901 1528">7%</td> <td data-bbox="901 1486 937 1528">6%</td> <td data-bbox="937 1486 972 1528">5%</td> </tr> </tbody> </table>	Term year	1	2	3	4	5	Early withdrawal charge	8%	8%	7%	6%	5%
Term year	1	2	3	4	5								
Early withdrawal charge	8%	8%	7%	6%	5%								

<p>Market value adjustment</p>	<p>During the initial term or a renewal term, a market value adjustment (or MVA) will apply if the contract is surrendered or a withdrawal above the free withdrawal allowance is taken.</p> <p>An MVA is an adjustment to the contract values based on how market interest rates have changed since the contract was purchased. If interest rates have gone up, the adjustment will be negative and may decrease contract values. If interest rates have gone down, the adjustment may be positive and may increase contract values. The amount subject to the adjustment is the portion of the account value withdrawn after the 10% free withdrawal allowance. This amount is then multiplied by the MVA factor.</p> <p>An MVA is limited by the difference between the account value and Guaranteed Minimum Surrender Value (GMSV) immediately before the withdrawal or surrender. A negative MVA, together with that early withdrawal charge, may not reduce the account value of the contract to less than the GMSV. A positive MVA may at most increase the account value of the contract by an amount equal to the difference between the account value and the GMSV immediately before the withdrawal or surrender.</p>
<p>Guaranteed Minimum Surrender Value (GMSV)</p>	<p>The amount payable to you if you surrender your contract will never be less than the Guaranteed Minimum Surrender Value (GMSV). The GMSV is based on 87.5% of purchase payments, plus interest credited daily at the GMSV rate. Ask your financial professional for the rate that will apply to your contract. It's important to remember the GMSV is reduced by prior withdrawals.</p> <p>The GMSV will not be less than the minimum values required by the NAIC Standard Nonforfeiture Law for Individual Deferred Annuities, model #805.</p>
<p>Income payout options</p>	<p>Fixed period: You receive payments for a fixed period of time that you select.</p> <p>Life or life with a minimum fixed period: You receive payments for life. If you select a minimum fixed period of time and pass away before the end of the period, the remaining payments are paid to the person you designate.</p> <p>Joint and one-half survivor: Payments are guaranteed for your life and the life of a designated joint annuitant. If you are survived by the joint annuitant, he or she will receive 50% of the payment for life.</p>
<p>Included waiver riders</p>	<p>Extended care waiver rider: After the first contract year, if you are confined to a nursing home or long-term care facility for at least 90 consecutive days, you have the option to withdraw up to 100% of the account value without incurring an early withdrawal charge.</p> <p>Terminal illness waiver rider: After the first contract year, if you are diagnosed by a physician as having a terminal illness, you have the option to withdraw up to 100% of the account value without incurring an early withdrawal charge. A terminal illness is defined as having a prognosis of survival of 12 months or less, or a longer period as required by state law.</p> <p>Extended care and terminal illness waiver riders are not available in Massachusetts. In California, the Extended Care Waiver Rider has been replaced with the Waiver of Early Withdrawal Charges for Facility Care or Home Care or Community-Based Services Rider, which provides for a waiver of early withdrawal charges under an expanded variety of circumstances.</p>
