Not FDIC or NCUA/NCUSIF insured	Not insured by any federal government agency

# What is Symetra Select Pro?

## Let's break it down.

Symetra Select Pro is a modified single-premium fixed deferred annuity.

Let's look at what that means. >

---

## Modified single-premium

You purchase your annuity contract with a lump sum of at least \$10,000. During the contract's first year, **you can add additional payments** of \$1,000 or more.\*

*You make a single payment and can add additional payments of \$1,000 or more throughout the first year.*

---

## Fixed

You earn a **guaranteed interest rate** over a **fixed** period of time.

*Fixed rate*

---

## Annuity

An annuity is a contract between you and an insurance company. The money you use to purchase the contract accumulates interest over a period of time. Eventually, the money you put in—plus the accumulated interest—is **paid back** to you in a form you choose, including in regular payments that can last a lifetime.

*Your money can grow over time*

*And pays you back later*

\*Subject to approval. For more information, please refer to the Contract Summary and/or Statement of Benefit Information.

# How secure is your retirement?

You've worked hard and saved for years to achieve your retirement. Whether you've already embarked on this adventure or are still a few years away, determining a path to a secure financial future becomes a higher priority. You may be seeking guaranteed interest, but it also may be time to protect some of your assets from the market's twists and turns. And you might want a degree of control over your money for unexpected needs.

## Welcome to Symetra Select Pro

Select Pro Fixed Deferred Annuity can help serve as a foundation of stability for your retirement portfolio by providing both accumulation and lifetime income options, and also providing for loved ones.

### Features include:

- ✓ The reliability of an interest rate with no exposure to market risk.
- ✓ The ability to accumulate more through tax-deferred and compounding interest.
- ✓ The ability to access a portion or, in certain cases, all of the money in your contract without withdrawal charges.

## The challenges of retirement today

Here are some key challenges that can affect your approaching retirement that should be taken into consideration:

- Growing your retirement savings.
- Protecting at least a portion of your savings from unpredictable markets.
- Limiting the tax burden.
- Maintaining control over your money.

**Select Pro offers important advantages that can help address each of these concerns.**

### Dependable growth that compounds over time

The growth in Select Pro is enhanced by the power of compounding interest. You earn interest not only on your original purchase amount, but also on the interest your money accrues. Your balance increases as interest is credited daily.

### Stability

Select Pro is guaranteed to earn an interest rate regardless of market conditions. You'll select a time period for your contract (3, 5 or 7 years) and Symetra will pay a guaranteed interest rate for that entire period. If you remain in your contract at the end of your selected time period, your interest rate can reset annually but will never be less than the minimum interest rate stated in your contract.

### Tax deferral

With Select Pro, interest grows on a tax-deferred basis. This means you won't pay income taxes on any interest until you take your money out of the contract. You might be in a lower tax bracket at that time, helping you keep more of what you accumulated.

### Additional guarantees for more control

You also have the option to select a **guaranteed return of purchase payment** (GROPP), which ensures you will never receive less than what you contributed to your annuity, minus any prior withdrawals.<sup>1</sup>

<sup>1</sup> Please contact your financial professional for more information.

## Control over your money

Select Pro is a retirement product, and if you purchase a contract, you should be committed to the long term. However, Select Pro also offers flexibility for accessing that money if unforeseen circumstances require it, including:

### Free annual withdrawals

As soon as the contract is in effect, you can withdraw up to the free withdrawal amount each contract year with no charges. This amount is calculated at the time of your first withdrawal during that contract year.

### Required minimum distributions

If the annuity contract is held within an IRA that is subject to required distributions (RMDs) after age 72, you can withdraw amounts up to your annual RMD with no charges.

### Nursing home and hospitalization waiver

If you spend 30 consecutive days in a nursing home or hospital, all withdrawal charges are waived. You have up to 90 days after leaving a facility to request a qualifying distribution.<sup>1</sup>

### Terminal illness waiver

After the first year, withdrawal charges are waived if you are diagnosed with a terminal illness.<sup>1</sup>

## Benefits for your beneficiaries

### Death benefit

When you purchase your annuity, you'll also name primary and contingent beneficiaries for your contract. Upon your death, your beneficiaries will receive the greater of:

- The contract value (which does not reflect any current withdrawal charges); or
- The guaranteed minimum value.

### Flexibility for spousal beneficiaries

If your spouse is named as the primary beneficiary or joint owner, they may continue the contract rather than collect the death benefit. If the spouse continues the contract, any charges for withdrawals in the future are waived.<sup>2</sup> This spouse continuation option may only be used once.

<sup>1</sup> May vary by state. Please see your contract for details.

<sup>2</sup> Spousal benefits and rights described here may be subject to Internal Revenue Code provisions.

## Turn your annuity into a stream of income

While you can always take a lump sum withdrawal from your annuity (subject to applicable withdrawal charge rules), an important benefit of annuities is their ability to be converted into a regular stream of income payments (known as annuitization). Such payments can provide a reliable source of income later in life. You may convert all or a portion of your Select Pro contract value to an annuity payout option.

You'll decide how you want to structure your income stream:

- 1** **Payments over a set number of years.**
- 2** **Payments over your lifetime, no matter how long you live.**
- 3** **Payments over the lives of you and your joint annuitant.**

The amount of your payments is based on the terms you selected and the contract value at the time of annuitization. Typically, the longer the term of payments, the lower the amount paid. Payments can be received monthly, quarterly or annually.

As a source of income payments in retirement, Symetra annuities offer:

- ✓ **A reliable stream of income:** Symetra guarantees regular payments to you in conjunction with the terms of your contract.
- ✓ **Income that can't be outlived:** Annuity payments can continue for the rest of your life or the lives of you and your joint annuitant (usually a spouse).
- ✓ **Tax deferral:** Annuity payouts for non-qualified contracts are subject to tax, but a portion of each annuity payment is non-taxable.

## Choose the term of your Select Pro annuity

Depending on your selection, the first three, five **or** seven years of your contract are called the “withdrawal charge period.” During this time, if you withdraw more than the free withdrawal amount, you will pay a withdrawal charge on the excess amount, unless a waiver applies. This timeframe determines the amount you will be charged on that excess amount as well as the number of years you will earn a guaranteed interest rate.

### The withdrawal charge decreases during your contract term as follows:

#### 3-year schedule:

Contract year	1	2	3	4+
Charge*	8%	8%	7%	0%

#### 5-year schedule:

Contract year	1	2	3	4	5	6+
Charge*	8%	8%	7%	6%	5%	0%

#### 7-year schedule:

Contract year	1	2	3	4	5	6	7	8+
Charge*	8%	8%	7%	6%	5%	4%	3%	0%

\* As a percentage of the amount withdrawn in excess of the free withdrawal amount.

Contract form number is ICC21\_RC1 in most states. Products, endorsements, features, terms and conditions may vary by state and may not be available in all U.S. states or any U.S. territory.

The Guaranteed Return of Purchase Payment Endorsement is form number is ICC21\_RE1 in most states. Terminal illness waiver endorsement form number is ICC19\_RE3 in most states. Hospital and Nursing Home Waiver endorsement form number is ICC19\_RE2 in most states. Interest Crediting endorsement form number is ICC21\_RE3 in most states. Free Withdrawal endorsement form number is ICC21\_RE4 in most states.

Annuity contracts have terms and limitations for keeping them in force. Contact your financial professional or insurance producer for complete details.

Guarantees and benefits are subject to the claims-paying ability of the issuing life insurance company.

The Nursing Home and Hospitalization Waiver is not available in all states. Withdrawal charges are waived after 30 days of confinement in a nursing home or hospital, and up to 90 days after release. There is a one-year waiting period if already confined in a hospital or nursing home on the first contract day.

The Terminal Illness Waiver is not available in all states, and the features and provisions may vary by state. Surrender charges may be waived if the owner is diagnosed with a terminal illness and not expected to live more than 12 months. The owner may not be diagnosed with the terminal illness as of the contract date.

Withdrawals may be subject to federal income taxes, and a 10% IRS early withdrawal tax penalty may also apply for amounts taken prior to age 59½. Consult your attorney or tax professional for more information.

Required minimum distribution (RMD) rules apply to traditional IRAs and IRA-based plans such as SEPs, SARSEPs, SIMPLE IRAs, 401(k) plans, 403(b) plans, and 457(b) plans. They do not apply to Roth IRAs while the owner is alive.

Generally, RMDs from Individual Retirement Annuities (IRA) are required for each year following the year in which you attained age 72 ("required beginning date").

If you die before annuity payments begin, the entire balance of the annuity contract must be distributed to the beneficiary within ten years. Exceptions are when the beneficiary is a surviving spouse, a child who has not reached the age of majority, a disabled or chronically ill person or a person not more than ten years younger than you. The 10-year rule applies regardless of whether the IRA owner dies before, on, or after the required beginning date.

Tax-qualified contracts such as IRAs, 401(k)s, etc. are tax-deferred regardless of whether or not they are funded with an annuity. If you are considering funding a tax-qualified retirement plan with an annuity, you should know that an annuity does not provide any additional tax-deferred treatment of earnings beyond the tax-qualified plan or program itself. However, annuities do provide other features and benefits such as death benefits and income payment options.

Contracts not owned for the benefit of natural persons, e.g., contracts owned by trusts, corporations or certain other entities, are generally not treated as annuities for federal income tax purposes and any interest are taxed as ordinary income in the current year. Exceptions may apply. Prospective owners that are not natural persons should consult their tax professionals before purchasing the contract.

Neither Symetra Life Insurance Company nor its employees provide investment, tax, or legal advice or endorse any particular method of investing. Please consult your attorney or tax professional before making savings and investing decision.

Products and services vary by distributor.
